GENERAL STATEMENT

The Summer School of Millsaps College for 1923 will open on June 11th, and will continue for nine weeks.

The Summer School will be conducted for teachers who desire work in High School subjects and College students. High School students who have a little work to make up for entrance will find opportunity here to do so. Teachers may secure renewal of license by attendance for six weeks.

In opening its doors to the teachers of the State, Millsaps College feels that it is serving a long felt need in that some provision should be made at the Capital of the State for teachers to spend a few weeks during their vacation and at the same time take such work as they may desire.

All the advantages of the other summer schools will be afforded in the way of renewal and extension of license, and lectures provided by the State Department of Education.

College graduates who lack the required number of hours in Education will find, here, an opportunity to make up some of those hours. Students with two years of College training may, with six hours of Education, be granted a State License without examination by the State Board of Examiners.

The amount of work that a student may take will be limited to two subjects with a total credit of five hours.

There will be a series of lectures by special lecturers from time to time. Announcement will be made beforehand.

The tuition fee will be \$25.00 and a matriculation fee of \$3.50 will be charged. Board will be \$25.00 or \$26.00 per month, or at the rate of \$8.00 per week. For a period of less than a week the rate will be \$1.50 per day. Those who expect to live on the campus will bring with them a pillow, bed-linen, towels and toilet articles. The dormitories and dining hall will be open on the evening of June 11th. Fees and board payable in advance.

Those expecting to enter the Summer School should make reservation by sending to the Director a deposit of \$5.00.
